

Study 2 Questionnaire: South Korea
English Translation

Block: consent

Q1 This survey asks for your opinions on recent political issues and will take approximately 10 minutes to complete. The findings will be reported in academic journals and presented at seminars and conferences. No information that could identify individual respondents will be made public. All data will be stored securely in digital form on password-protected computers. After the study is completed, de-identified data will be added to a publicly accessible database, where researchers may use them indefinitely.

Participation is voluntary, and you may withdraw at any time. Please note that compensation may not be provided if you do not follow the instructions. This study has been approved by the Institutional Review Board of Sungkyunkwan University.

For questions or assistance, please contact Yuko Kasuya at ykasuya@keio.jp.

If you agree to participate, please select “I agree to participate in the survey.”

- I agree to participate in the survey (1)
 - I do not consent to participate in the survey (2)
-

Block: part0

Q2 Careful responses to the survey questions are very important for this study. To confirm that you are reading the questions carefully, please select “I have a question” from the options below. Thank you for your cooperation.

- I understand the above (1)
 - I do not understand the above (2)
 - I have a question (3)
-

Block: part1

Q3 What is your gender?

- Male (1)
- Female (2)
- Other (3)

Q4 What is your age? (Please report your age as of your most recent birthday.)

- Under 18 (8)
- 18-29 (2)
- 30-39 (3)
- 40-49 (4)
- 50-59 (5)
- 60-69 (6)
- 70 or older (7)

Q5 Do you usually consider yourself close to any particular political party?

- No (1)
- Yes (2)

Display logic

If Q5 = No

Q6 Do you feel a little closer to one political party than to the others?

- No (1)
- Yes (2)

Display logic

If Q5 = Yes

Or Q6 = Yes

Q7 Which party do you feel closest to?

- People Power Party (1)
- Democratic Party of Korea (2)
- Reform Party (4)
- Other (3) _____

Display logic

If Q5 = Yes

Or Q6 = Yes

Q8 Do you feel very close to this party, somewhat close, or not very close?

- Very close (1)
- Somewhat close (2)
- Not very close (3)

Q9 We would like to ask about your attitude toward risk. Suppose that, according to the weather forecast, the probability of rain today is 35%. In such a case, do you usually take an umbrella when you go out?

- Yes (1)
 - No (2)
-

Block: Part 3

Q10 In the following questions, you will see two statements. For each statement, please judge whether it is true or false and estimate how accurately other people would judge it. Please do not look up the answers online; respond based on your intuitive judgment. The purpose of this survey is to understand intuitive reasoning.

Block: Pre-treatment T/F questions

Q11 Please judge whether the following statement is true or false: “Members of the National Assembly serve two-year terms.”

- True (1)
- False (2)

Q12 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is correct

Q13 Next, please estimate the percentage of people in each group below who would correctly determine whether this statement is true or false. For example, if you think everyone in Group X would answer correctly, enter 100% for that group.

People Power Party supporters

Democratic Party of Korea supporters

Q14 Please judge whether the following statement is true or false: "New Zealand is located in the Middle East."

- True (1)
- False (2)

Q15 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is correct

Q16 Next, please estimate the percentage of people in each group below who would correctly determine whether this statement is true or false. For example, if you think everyone in Group X would answer correctly, enter 100% for that group.

People Power Party supporters

Democratic Party of Korea supporters

Block: Treatment

Display logic

If Dif $\geq$ 10

Q17 We asked you to estimate the average correct-answer rates of supporters of the People Power Party and supporters of the Democratic Party of Korea across the two true-or-false judgment tasks. Your estimated average correct-answer rate for each group was:

Supporters of the People Power Party: $\{e://Field/AR\}\%$

Supporters of the Democratic Party of Korea: $\{e://Field/AL\}\%$

In other words, you believed that supporters of the People Power Party were more knowledgeable than supporters of the Democratic Party of Korea.

However, this assessment is incorrect. In our earlier survey, the two groups showed nearly the same level of knowledge on these items. For each of the two true-or-false questions, the difference in correct-answer rates between the groups was less than 5%.

Display logic

If Dif $\leq$ -10

Q18 We asked you to estimate the average correct-answer rates of supporters of the People Power Party and supporters of the Democratic Party of Korea across the two true-or-false judgment tasks. Your estimated average correct-answer rate for each group was:

Supporters of the People Power Party: $\{e://Field/AR\}\%$

Supporters of the Democratic Party of Korea: $\{e://Field/AL\}\%$

In other words, you believed that supporters of the Democratic Party of Korea were more knowledgeable than supporters of the People Power Party.

However, this assessment is incorrect. In our earlier survey, the two groups showed nearly the same level of knowledge on these items. For each of the two true-or-false questions, the difference in correct-answer rates between the groups was less than 5%.

Display logic

If Dif $<$ 10

And Dif $>$ -10

Q19 We asked you to estimate the average correct-answer rates of supporters of the People Power Party and supporters of the Democratic Party of Korea across the two true-or-false judgment tasks. Your estimated average correct-answer rate for each group was:

Supporters of the People Power Party: $\{e://Field/AR\}\%$

Supporters of the Democratic Party of Korea: $\{e://Field/AL\}\%$

In other words, you believed that the two groups had nearly the same level of knowledge.

This assessment is correct. In our earlier survey, the two groups showed nearly the same level of knowledge on these items. For each of the two true-or-false questions, the difference in correct-answer rates between the groups was less than 5%.

Q20 Based on the information above, please judge whether the following statement is true or false. You cannot proceed without selecting the correct answer.

Supporters of the People Power Party and supporters of the Democratic Party of Korea showed nearly the same level of knowledge on the two true-or-false judgment tasks (the difference in correct-answer rates between the two groups was less than 5% on both items).

- True (1)
 - False (2)
-

Block: Control

Display logic

If Dif < 10
And Dif > -10

Q21 We asked you to estimate the average correct-answer rates of supporters of the People Power Party and supporters of the Democratic Party of Korea across three true-or-false judgment tasks. Your estimated average correct-answer rate for each group was:

Supporters of the People Power Party: $\{e://Field/AR\}\%$

Supporters of the Democratic Party of Korea: $\{e://Field/AL\}\%$

In other words, you believed that the two groups had nearly the same level of knowledge.

Display logic

If Dif >= 10

Q22 We asked you to estimate the average correct-answer rates of supporters of the People Power Party and supporters of the Democratic Party of Korea across three true-or-false judgment tasks. Your estimated average correct-answer rate for each group was:

Supporters of the People Power Party: $\{e://Field/AR\}\%$

Supporters of the Democratic Party of Korea: $\{e://Field/AL\}\%$

In other words, you believed that supporters of the People Power Party were more knowledgeable than supporters of the Democratic Party of Korea.

Display logic

If Dif <= -10

Q23 We asked you to estimate the average correct-answer rates of supporters of the People Power Party and supporters of the Democratic Party of Korea across three true-or-false judgment tasks. Your estimated average correct-answer rate for each group was:

Supporters of the People Power Party: $\{e://Field/AR\}\%$

Supporters of the Democratic Party of Korea: $\{e://Field/AL\}\%$

In other words, you believed that supporters of the Democratic Party of Korea were more knowledgeable than supporters of the People Power Party.

Display logic

If Dif >= 10

Q24 Based on the information above, please judge whether the following statement is true or false. You cannot proceed without selecting the correct answer.

You believed that supporters of the People Power Party were more knowledgeable than supporters of the Democratic Party of Korea.

- True (1)
- False (2)

Display logic

If Dif $\leq$ -10

Q25 Based on the information above, please judge whether the following statement is true or false. You cannot proceed without selecting the correct answer.

You believed that supporters of the Democratic Party of Korea were more knowledgeable than supporters of the People Power Party.

- True (1)
- False (2)

Display logic

If Dif $<$ 10

And Dif $>$ -10

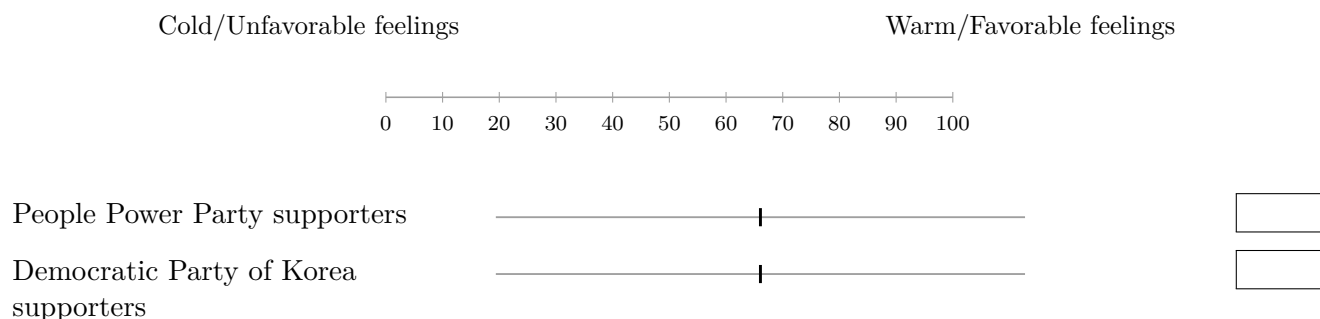

Q26 Based on the information above, please judge whether the following statement is true or false. You cannot proceed without selecting the correct answer.

You believed that supporters of the People Power Party and supporters of the Democratic Party of Korea had nearly the same level of knowledge.

- True (1)
 - False (2)
-

Block: affective

Q27 On a scale from 0 to 100, where 0 means very cold or unfavorable feelings and 100 means very warm or favorable feelings, how warmly do you feel toward supporters of each party?

Block: signal__questions__1__before__SK

Q28 Next, please judge whether the statement is true or false and estimate how accurately you think other people would judge it. Please do not look up the answer online; respond based on your intuitive judgment. The goal of this survey is to understand your intuitive reasoning.

Q29 Please judge whether the following statement is true or false: “To amend the Constitution, more than half of the votes cast in a national referendum must be in favor.”

- True (1)
- False (2)

Q30 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is correct

Q31 Next, please estimate the percentage of people in each group below who would correctly determine whether this statement is true or false. For example, if you think everyone in Group X would answer correctly, enter 100% for that group.

People Power Party supporters

Democratic Party of Korea supporters

Q32 Unlike in the previous tasks, you will now be shown other people’s opinions about whether the statement “To amend the Constitution, more than half of the votes cast in a national referendum must be in favor” is true or false. Based on those opinions, please judge the statement again.

Block: signal__1__SK

Display logic

If T1 <= 50

And Q29 = True

Q33 On the previous page, you judged the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." to be true.

According to our previous survey, a majority of supporters of the People Power Party also responded that the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." is true.

Display logic

If T1 <= 50

And Q29 = True

Q34 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of supporters of the People Power Party. (1)
- My initial judgment was the same as that of a majority of supporters of the People Power Party. (2)

Display logic

If T1 <= 50

And Q29 = false

Q35 On the previous page, you judged the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." to be false.

However, according to our previous survey, a majority of supporters of the People Power Party responded that the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." is true.

Display logic

If T1 <= 50

And Q29 = False

Q36 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of supporters of the People Power Party. (1)
- My initial judgment was the same as that of a majority of supporters of the People Power Party. (2)

Display logic

If T1 > 50

And Q29 = True

Q37 On the previous page, you judged that the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." is true.

According to our previous survey, a majority of supporters of the Democratic Party of Korea also responded that the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." is true.

Display logic

If T1 > 50

And Q29 = True

Q38 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of supporters of the Democratic Party of Korea. (1)
- My initial judgment was the same as that of a majority of supporters of the Democratic Party of Korea. (2)

Display logic

If T1 > 50

And Q29 = False

Q39 On the previous page, you judged the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." to be false.

However, according to our previous survey, a majority of supporters of the Democratic Party of Korea responded

that the statement "To amend the Constitution, more than half of the votes cast in a national referendum must be in favor." is true.

Display logic

If T1 > 50

And Q29 = False

Q40 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of supporters of the Democratic Party of Korea. (1)
- My initial judgment was the same as that of a majority of supporters of the Democratic Party of Korea. (2)

Q41 Given the information above, please judge again whether the following statement is true or false:
"To amend the Constitution, more than half of the votes cast in a national referendum must be in favor."

- True (1)
- False (2)

Q42 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is
correct

Block: signal_questions_2_SK

Q43 Please judge whether the following statement is true or false: "The iPhone was invented before 2000."

- True (1)
- False (2)

Q44 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is correct

Q45 Next, please estimate the percentage of people in each group below who would correctly determine whether this statement is true or false. For example, if you think everyone in Group X would answer correctly, enter 100% for that group.

And Q82 = False

Q91 On the previous page, you judged the statement "There was widespread election fraud in the 2020 and 2024 National Assembly elections" to be false.

According to our previous survey, a majority of supporters of the Democratic Party of Korea also responded that the statement "There was widespread election fraud in the 2020 and 2024 National Assembly elections" is false.

Display logic

If Q82 = False

And T5 > 50

Q92 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of supporters of the Democratic Party of Korea. (1)
- My initial judgment was the same as that of a majority of supporters of the Democratic Party of Korea. (2)

Q93 Given the information above, please judge again whether the following statement is true or false:
"There was widespread election fraud in the 2020 and 2024 National Assembly elections."

- True (1)
- False (2)

Q94 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is
correct

Block: education_signal_1

Q95 Please judge whether the following statement is true or false: "South Korea's nominal GDP growth rate last year was below 5%."

- True (1)
- False (2)

Q96 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is correct

Q97 As in the previous tasks, we will now present other people's opinions. This time, the opinions will be those of college graduates or people without a college degree.

Display logic

If T6 <= 50

And Q95 = True

Q98 On the previous page, you judged the statement "South Korea's nominal GDP growth rate last year was below 5%." to be true.

According to our previous survey, a majority of college graduates also responded that the statement "South Korea's nominal GDP growth rate last year was below 5%." was true.

Display logic

If Q95 = True

And T6 <= 50

Q99 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of college graduates. (1)
- My initial judgment was the same as that of a majority of college graduates. (2)

Display logic

If T6 <= 50

And Q95 = false

Q100 On the previous page, you judged the statement "South Korea's nominal GDP growth rate last year was below 5%." to be false.

However, according to our previous survey, a majority of college graduates responded that the statement "South Korea's nominal GDP growth rate last year was below 5%." was true.

Display logic

If Q95 = False

And T6 <= 50

Q101 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of college graduates. (1)
- My initial judgment was the same as that of a majority of college graduates. (2)

Display logic

If T6 > 50

And Q95 = True

Q102 On the previous page, you judged the statement "South Korea's nominal GDP growth rate last year was below 5%." to be true.

According to our previous survey, a majority of people without a college degree also responded that the statement "South Korea's nominal GDP growth rate last year was below 5%." was true.

Display logic

If Q95 = True

And T6 > 50

Q103 Based on the information above, please select the appropriate statement below. You must select the correct answer to proceed to the next question.

- My initial judgment was different from that of a majority of people without a college degree. (1)
- My initial judgment was the same as that of a majority of people without a college degree. (2)

Display logic

If Q95 = False

And T6 > 50

Q104 On the previous page, you judged the statement "South Korea's nominal GDP growth rate last year was below 5%." to be false.

However, according to our previous survey, a majority of people without a college degree responded that the statement "South Korea's nominal GDP growth rate last year was below 5%." was true.

Display logic

- My initial judgment was different from that of a majority of people without a college degree. (1)
- My initial judgment was the same as that of a majority of people without a college degree. (2)

Q118 Given the information above, please judge again whether the following statement is true or false:
"By law, a person must be at least 19 years old to drink alcohol."

- True (1)
- False (2)

Q119 Please indicate how confident you are that your answer to this item is correct on a scale from 0 to 100. For example, choose 50 if you think there is a 50% chance that your answer is correct; choose 100 if you are completely certain.

Confidence that your answer is
correct

Block: Part8

Q120 How would you feel about having each of the following types of relationships with supporters of the Democratic Party of Korea?

	Strongly dislike (1)	Dislike (2)	Like (3)	Strongly like (4)
Having a supporter as a coworker (1)	○	○	○	○
Having a supporter as a close friend (2)	○	○	○	○
Having a supporter as my spouse or my child's spouse (3)	○	○	○	○

Q121 How would you feel about having each of the following types of relationships with supporters of the People Power Party?

	Strongly dislike (1)	Dislike (2)	Like (3)	Strongly like (4)
Having a supporter as a coworker (1)	○	○	○	○
Having a supporter as a close friend (2)	○	○	○	○
Having a supporter as my spouse or my child's spouse (3)	○	○	○	○

Q122 In which region do you currently live?

- Seoul (1)
- Busan (2)
- Daegu (3)
- Incheon (4)
- Gwangju (5)
- Daejeon (6)
- Ulsan (7)
- Sejong (8)
- Gyeonggi Province (9)
- Gangwon Province (10)
- North Chungcheong Province (11)
- South Chungcheong Province (12)
- North Jeolla Province (13)
- South Jeolla Province (14)
- North Gyeongsang Province (15)
- South Gyeongsang Province (16)
- Jeju Province (17)

Q306 Before completing the survey, please answer four questions about your sociodemographic background.

Q123 What is your household's total annual income? Please select the category that most closely matches your household's pre-tax annual income.

- Less than KRW 20 million (1)
- KRW 20 million or more but less than KRW 40 million (2)
- KRW 40 million or more but less than KRW 60 million (3)
- KRW 60 million or more but less than KRW 80 million (4)
- KRW 80 million or more but less than KRW 100 million (5)
- KRW 100 million or more but less than KRW 120 million (6)
- KRW 120 million or more but less than KRW 150 million (7)
- KRW 150 million or more but less than KRW 200 million (8)
- KRW 200 million or more (9)

Q124 What is the highest level of education you have completed?

- Middle school graduate or less (1)
- High school graduate (2)
- Associate's or bachelor's degree (3)
- Master's degree or higher (4)

Q125__k What is your religion?

- Buddhism (1)
- Christianity (e.g., Protestantism or Catholicism) (2)
- No religion (3)
- Other (4) _____

Display logic

If Q9 = Yes

Q127 We would like to ask about your attitude toward risk. Suppose that, according to the weather forecast, the probability of rain today is 35%. In such a case, do you usually take an umbrella when you go out?

Our hypothesis is that because people are willing to take risks, they will not take an umbrella.

- Yes (1)
- No (2)

Display logic

If Q9 = No

Q128 We would like to ask about your attitude toward risk. Suppose that, according to the weather forecast, the probability of rain today is 35%. In such a case, do you usually take an umbrella when you go out?

Our hypothesis is that because people are risk-averse, they will take an umbrella.

- Yes (1)
 - No (2)
-

Block: debunking

Q128 Thank you for participating.

The two statements you evaluated earlier were based on prominent conspiracy claims that circulate widely in Korean society. Based on the research and evidence currently available, the following claims are considered unlikely to be true:

1. There was widespread election fraud in the 2020 and 2024 National Assembly elections.
 2. The Supreme Court colluded with Yoon Suk-yeol and decided to disqualify Lee Jae-myung from the presidential election.
-
